MY COMMUNITY PLAN

USING OUR COLLECTIVE STRENGTHS TO REALIZE ONE OF OUR MOST SACRED COMMISSIONS

“serving those who are in need” – **Matthew 25: 35-40**

Churches are engaged in every good work to satisfy the needs of their community. This good work improves the community through various acts of service such as:

“Is it not to share your food with the hungry and to provide the poor wanderer with shelter when you see the naked, to clothe them, and not to turn away from your own flesh and blood”

(Isaiah 58:7)

Adsystem is providing an opportunity for partnership in one of two plans: Basic Case Management or Endowment Services. Through these plans, Churches have the ability to further access funds for collaborative community development initiatives. Adsystem looks to provide churches the ability to attract funding based on best practices of tracking and managing funds.

The Basic Case Management plan is a “Starting Point” towards adept Continuum of Care reporting.

*The Endowment Service plan requires Adsystem to seek and write grants to further Pastor vision for community transformation.

*This plan is available to church organizations who have been accepted into a grant program.
