CSBG

Community Services Block Grant (CSBG) provides core federal funding to local agencies, like community action agencies, to reduce poverty, revitalize low income communities, and to empower low-income families to become self-sufficient. Through Adsystem's CSBG solution, agencies are able to utilize software to capture accurate information that maps appropriately to *Section G while tracking and managing Results Oriented Management and Accountability (ROMA) Goals.

Adsystem's CSBG module provides collaborative delivery and administration of many services onto a unified solution such as:

- + Employment Programs
- + Education
- + Income Management
- + Housing
- + Emergency Services
- + Support Services
- + Self Sufficiency
- + Health
- + Linkage

Through the ability to track and manage services as a collective, agencies and organizations are more successful in utilizing combined data to measure domain outcomes of an individual, in addition to the measurement of a program's overall effectiveness. This in turn drives down operating costs while improving the effective delivery of services to families and individuals in need.

ROMA GOALS

- Goal 1:** Low-income people become more self-sufficient.
- Goal 2:** The conditions in which low-income people lives are improved.
- Goal 3:** Low-income people own a stake in their community.
- Goal 4:** Partnerships among supporters and providers of service to low-income people are achieved.
- Goal 5:** Agencies increase their capacity to achieve results.
- Goal 6:** Low-income people achieve their potential by strengthening family and other supportive systems.

BENEFITS

- + Centralized client data entry means unduplicated records, across programs, of families and individuals.
- + Centralized Tracking of Household Demographics, Employment History and Documentation
- + Tracking and management across all domains to financially assess Individuals / Families

REPORTING TOOLS

- + Management report tools contain over 50 pre-defined reports that meet the most common organization and regulatory reporting requirements
- + Ad Hoc Query tools gives authorized users the ability to search any Program, Activity and Client information.

+NPI REPORTING +CSBG SECTION G REPORTING

- > Real-time reports reflecting Information Survey Mandates including Narratives, Expenditures, Characteristics and NPIs (National Performance Indicators)

This demographic information will strengthen the CSBG/IS Annual Report by demonstrating who is being served by CSBG agencies.
