When developing Version 6, Adsystech worked with agencies and organizations in attempt to perfect an easy, user-friendly approach to software that assists clients with their customers. By taking advantage of today’s technological advances, Adsystech has been able to revolutionize basic capabilities and functionalities, giving users an efficient and effective system at the reach of their fingertips.

**KEY POINTS**

**+ PORTAL ABILITY**
Welcome to the new and improved Quick Entry! By creating a front-end portal, customers are able to pre-register for placement in programs and services. The collected data from the portal is centrally accessible for clients and can be used to validate placement and finish applications.

**+ CENTRAL ARCHIVE**
The central archive is a repository Adsystech created to store all demographic information entered into the system. Clients have access to the centrally stored data without the hassle of needing to be managed.

**+ HTML5 PLATFORM**
With all of today’s new devices, Adsystech takes in account an user/case manager’s need for mobility and versatility. By having a HTML5 Platform, Version 6 can be used across several browsers. Clients can now find the mobility they need across various devices such as iPads, and smart phones. Anticipating the additional need for a system with intuitive abilities, Version 6 dynamically adjusts to various resolutions, thus making it adaptable to screens as small as an iPhone or as big as a desktop.

**KEY NEW FEATURES**

**ADD/EDIT/DELETE BUTTONS**
- Consistent throughout pages/tabs
- Configurable to adhere to your user group permissions
- Allows users to quickly make changes through pop-up technology without ever leaving the page/tab.

**QUICK ACCESS MENU**
- Provides easy and quick access to application/household listings, allowing you to easily switch applications and household members with few clicks.
- Adsystech specifically added a MyCase tab to allow users to view a list of their caseloads in one click.

**INTEGRATED TOOLS AND ASSISTANCE**
- Gives users the ability to understand or receive further clarification of a page
- Tool Tips allow for quick explanations when a cursor is dragged over certain elements
- Training videos assist user with page/tab navigation
- Required areas are highlighted in red with additional noted asterisks

**REAL TIME INCOME AND ELIGIBILITY VERIFICATION**
- Case Managers can now easily manage and verify client eligibility.
- Business logic flows onto one page (Verification Page) allowing a seamless verification process.
