HOUSING COUNSELING

Understanding the unique needs surrounding agencies and housing counseling, Adsystem developed the Housing Counseling module to accurately facilitate the tracking and management of counseled consumers who are seeking, financing, maintaining, renting, or owning a home. Providing a more efficient way to analyze data, this module allows clients to focus on the managed outcomes of their customers.

KEY POINTS

We want our product to be as manageable as possible for users. The Housing counseling module can be integrated into our HMIS module to provide a unified delivery system that can track and manage desired housing outcomes for vulnerable customers.

KEY PROGRAMS

- +Home Equity Conversion Mortgage (HECM) Counseling
- +FHA Home Affordable Modification Program (HAMP)
- +Making Home Affordable Program

TOOLS

- +Unduplicated client reporting
- +Security to allow the sharing or privacy of data
- +Advanced user security (limit access by location, device etc...)
- +Swipe cards
- +Importing and exporting HUD XML/CSV
- + Signature Pads
- +Google Mapping
- +Biometrics
- +Document Management
- +Workflow Engine
- +Text to Speech
- +Text to voice mail, messaging or email
- +Dashboard reporting
- +Reporting and program management tools
- +Information and Referral Services
- +Calendaring
- +Mobile capabilities and compatibility across multiple operating systems allow for field-counts and outreach work.
